Re: CGB-CC-0270
Diocese of Gaylord Petition for Exemption from Closed Captioning Rules

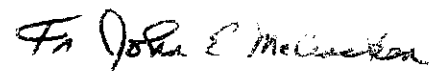

My name is Father John McCracken and I am the rector of the St. Mary Cathedral in Gaylord, Michigan. I am also the main presider of the Mass that is televised throughout the diocese every Sunday morning.

When I learned that the Diocese of Gaylord would be video-taping the Saturday evening Mass, editing it immediately after the Mass, and sending it to the television station for broadcast the next day, I did not realize the impact that this Mass would have on the many individuals who view it every Sunday. Since we have been broadcasting from the Cathedral I have received many letters and emails commenting on how people feel connected to the Church through their participation and viewing of this Mass. Many of them are homebound due to chronic illness and age. A number of individuals have written to tell me that when they were in the hospital recovering from surgery it was beneficial for them to view the Mass on Sunday morning during their hospital stay.

One of the significant aspects of this televised Mass, is that it is live, not a "canned" Mass. The actual celebration of our parish Saturday evening Mass, I believe, helps folks feel connected to a real parish, and not a "studio parish". I am amazed how many people will write to me commenting on the homily that I had given on a particular Sunday. I do not write out my homilies -- in fact, I have never done so for the past twenty-seven years. It is outlined mentally in my head, and given without notes. I do this because in my first year of being a priest I discovered that my mental outlines and written outlines vary greatly.

The televised Mass from the Cathedral touches the lives of many individuals, both Catholic and non-Catholic, and I would hate to see anything that would prevent this ministry of outreach from continuing.

Very sincerely yours,

Rev. John McCracken
Rector

From: EEG Sales
To: Candace Neff
Subject: Re: Encoder

Hello Candace,

Thank you for contacting EEG. If you wish to caption in real time you and you are at the facility where the program is originating you can use the EEG EN370DT (\$3,090.00) encoder. It is a desktop encoder with no modem. You will be able to connect the caption computer via the serial port? This is assuming you have a caption system which usually consists of a PC with Caption software,? and the steno keyboard to enter the data? Same would occur from a NLE editing system. You would be able to caption the final dub tape by inputing video to the encoder then outputing the final dub to a second master deck.

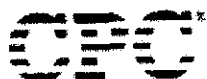

The software is called MacCaption for Mac or CaptionMaker for a PC.

Hope this helps
Eric

Caption Mic Broadcast comes with –

Desktop PC and accessories

Custom configured desktop PC that meets all the requirements to run Caption Mic Broadcast. The PC runs the Caption Mic software and feeds caption data to the line 21 caption encoder (the ITVinjector).

Caption Mic software

Real-time voice generated caption display software.

ITVinjector

Encodes line 21 closed caption data into the VBI of the program video signal. Receives caption data via LAN. Also has inputs for newswire computer feeds.

Andrea headset

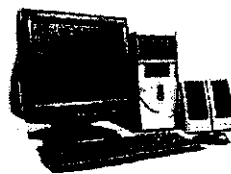

Contains a microphone to pick-up captioner's voice. Also contains an ear-piece for monitoring program audio.

CD-RW disks

Two preformatted CDs for backing up data.

Cables, adapters, Quick Start Guide, User's manual on CD

Everything you need to interconnect and operate the various Caption Mic components.

Options

Caption Wrap

Post production software that enables you to create videotape productions from your Caption Mic sessions. Provides editing and line 21 caption encoding capability in conjunction with a closed caption encoder.

Who we are

ULTECH is a developer of innovative products that improve the accessibility of media and communications through technology. Applications addressed by the company include closed captioning, subtitling, voice captioning, and Interactive TV. Founded in 1991, ULTECH operated as an independent company until 2002 when it became a wholly owned company of the National Captioning Institute Foundation. ULTECH markets primarily to the government, education, broadcast, post production and media services industry.

Voice captioning roadmap

ULTECH is committed to continually developing and improving Voice Captioning technology. The company plans to release several significant enhancements to the Caption Mic system over the next few years.

Ordering Information

Our products are available in two configurations: Standard and Professional. The Standard configuration includes the Caption Mic Broadcast software and the ITVinjector.

CM-Broadcast	Standard configuration (includes Caption Mic Broadcast software and ITVinjector)	\$10,000
CM-Broadcast	Professional configuration (includes Caption Mic Broadcast software, ITVinjector, and Caption Wrap post production software)	\$12,000
CM-Headset	Andrea headset (includes headset and manual)	\$400
CM-CD-RW	Two preformatted CD-RW disks	\$1,500
CM-Accessories	Cables, adapters, Quick Start Guide, User's manual on CD	\$1,000

Our products are available in two configurations.

Hi Candy!

We received a phone call from a gentleman today who wanted to let us know how much he appreciates that the mass at St. Mary is televised. He has trouble getting out and is far more comfortable at home. Thought you'd like to hear a "thanks" for all your hard work.

Suzy

Hello, We would like to come and visit your beautiful church.
My wife and I watch your services every Sunday morning.
She has trouble walking so We watch your services all the
time.

Would it be possible now that the weather is getting better
To send us a map where the church is located.

We live in Arcadia and like to drive up to attend your services.

Would it be possible to meet Father McCracken?

Thank you so much.

Nick J Goutziers.

Dear Candace. We will try to make it for next Saturday.
My wife Mary will be 81 in May and has trouble getting
around.
So if all goes well we will be there next Saturday and still
gives us time to get home. She likes to sleep in her own bed.
Thank you so much for your kind invitation.
Nick.

from arcadia we send our love.

Hello Candace, Mary and I will not be able to make it this week. Mary is not feeling good. We will try to make it next week. God Bless you for your kind words.

3701 W. Cheney Rd.,
Maple City, Pa. 15064
December 14, 2006.

Dear Father McCracken,

On August 1 of this year I had surgery for the total rebuilding of my left knee; and, was homebound for about six weeks. Prior to this time, preparing to go to church, we had watched your program on TV before we left home.

During that six weeks, though, the Reserved Sacrament was brought to our home, we wanted the experience of being present at the celebration of the Holy Eucharist, as my wife and I watched the Mass from St. Mary's. We felt right at home

now, having returned to Church, on Sunday, we are taking that part of the Service that includes your sermons, because both of us are so impressed, that we listen to them after we return home each

Sunday. Your parishioners are indeed fortunate to have such a wonderful Priest.

Enclosed is a small check made out to "Catholic Services Appeal", to assist in the continuation of this Ministry

As soon as the condition of my knee will allow, (hopefully soon) I intend to return to the Altar to resume celebrating the Holy Eucharist myself.

Sincerely,

Fr. Ted Lowry - Retired Priest
Assisting at Grace Episcopal
Church, Traverse City,

⑤

April 15 , 2007

Dear Father John,

You surely do still "Have it"/ Every Sunday we watch you and listen to you.

You are our direct connection to Jesus. Thru your caring words you helped us "see and feel", reaffirming again what we know and believe. If ever you doubt the effectiveness of these broadcasts—Don't !! I still have "goosebumps" thinking about your homily. Jim says " He just gets better every Sunday."

We live at Glen Eagle in Traverse City – a retirement home . When the weather is bad you are our direct connection to church, along with Deacon Rene from St. Patrick Church. He visits us during the week—reads the readings of the week and gives us Holy Communion. He is a very fine man and very devoted and faithful in providing this service to those of us who have difficulty getting to church.

It gives us such pleasure and comfort to see and hear you regularly/. We are reminded of our happy carefree days at St. James Church and Higgins Lake. Our daughter Lynne and husband Bob Frye still live at Higgins Lake—Cross —country Ski Headquarters. Our daughter Karen Grost Taylor and son Eric Grost live in Traverse City. (they tune into you occasionally also).

Life is good here – just different. Many of our new friends lead inspiring lives despite infirmity and are constant encouragement to us all – that God really does provide us with strength and hope to deal with life's surprises.

We thank you for your messages of faith each week—they truly recharge
our“batteries”~ We have enclosed a donation to support the Sunday Morning
television broadcasts from the Gaylord Cathedral.

Fondly,

Jim and Inge Grost

EXHIBIT B

EXEMPTIONS TO THE CLOSED CAPTIONING REQUIREMENTS ON THE BASIS OF UNDUE BURDEN

In addition to the self-implementing exemptions from the closed captioning rules (found in 47 C.F.R. § 79.1(d)), the Commission's rules provide procedures for petitioning the Commission for an exemption from the rules where compliance with the rules will result in an undue burden (47 C.F.R. § 79.1 (f)). The term "undue burden" means significant difficulty or expense. Exemptions may be granted, in whole or in part, for a channel of video programming, a category or type of video programming, an individual video service, a specific video program, or a video programming provider, upon a finding that the closed captioning requirements will result in an undue burden. A petition for an exemption must be supported by sufficient evidence to demonstrate that compliance with the closed captioning requirements would cause an undue burden. Petitions must also be supported by an affidavit. This is the only process to seek a waiver or exemption of the closed captioning rules.

Factors the Commission will consider when determining whether the requirements for closed captioning impose an undue burden include the following:

- The nature and cost of the closed captioning for the programming
- The impact on the operation of the provider or program owner
- The financial resources of the provider or program owner, including efforts to solicit captioning assistance from the distributors of its programming and the distributors' responses (See ¶ 204 of 1997 R&O.)
- The type of operations of the provider or program owner
- Any available alternatives that might constitute a reasonable substitute for the closed captioning requirements, including but not limited to, text or graphic display of the content of the audio portion of the programming (See ¶ 201 of 1997 R&O.)
- Other factors the petitioner deems relevant to the Commission's final determination.

Undue burden shall be evaluated with regard to the individual outlet. We encourage petitioners to propose alternative implementation schedules or benchmarks that could minimize the burden of compliance with the rules, but would increase the amount of captioning available for their viewers.

Discussion about the undue burden petition standard and process is found in paragraphs 182-205 of the 1997 Report and Order
<http://www.fcc.gov/Bureaus/Cable/Orders/1997/fcc97279.txt> and paragraphs 108-112 of the 1998 Reconsideration Order
http://www.fcc.gov/Bureaus/Mass_Media/Orders/1998/fcc98236.pdf.

Please note that pursuant to Commission rules, the petition, as well as any supporting financial information provided, will be available for public inspection in the Commission's Reference Information Center. The Commission endeavors to make this available on its website, as well. **As such, petitioners should redact social security numbers and employee identification numbers from their submissions.** Petitioners requesting confidential treatment of any information contained in a petition must specifically request such treatment in writing. Please note, however, that the "public version" of the petition must contain sufficient documentation to support the petitioner's claim that closed captioning would pose an undue burden.
